FORWARD-LOOKING STATEMENTS

In this prospectus supplement and the information incorporated by reference we make some “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are included throughout this prospectus supplement and the information incorporated by reference herein, including in the section titled “Risk Factors” and relate to, among other things, analyses and other information based on forecasts of future results and estimates of amounts not yet determinable. These forward-looking statements are identified by their use of terms and phrases such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will,” “continue,” and other similar terms and phrases, including references to assumptions.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties. Factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by us in those statements include, among others, the following:

- national and local economic and business conditions, including the continuing effect of recent terror alerts and potential terrorist activity on travel, that will affect, among other things, demand for products and services at our hotels and other properties, the level of room rates and occupancy that can be achieved by such properties and the availability and terms of financing and our liquidity;
- our ability to maintain properties in a first-class manner, including meeting capital expenditure requirements;
- our ability to compete effectively in areas such as access, location, quality of accommodations and room rate;
- our ability to acquire or develop additional properties and the risk that potential acquisitions or developments may not perform in accordance with our expectations;
- our degree of leverage, which may affect our ability to obtain financing in the future;
- the reduction in our operating flexibility and our ability to pay dividends resulting from restrictive covenants in our debt agreements, including the risk of default that could occur;
- changes in travel patterns, taxes and government regulations that influence or determine wages, prices, construction procedures and costs;
- government approvals, actions and initiatives, including the need for compliance with environmental and safety requirements and changes in laws and regulations or the interpretation thereof;
- the effects of tax legislative action;
- our ability to continue to satisfy complex rules in order for us to maintain our status as a real estate investment trust, or REIT, for federal income tax purposes, the ability of Host Marriott, L.P. to satisfy the rules in order to maintain its status as a partnership for federal income tax purposes, and the ability of certain of our subsidiaries to maintain their status as taxable REIT subsidiaries for federal income tax purposes, and our ability and the ability of our subsidiaries to operate effectively within the limitations imposed by these rules;
- the effect of any rating agency downgrades on the cost and availability of new debt financings and preferred stock issuances;
- the relatively fixed nature of our property-level operating costs and expenses;
- our ability to recover fully under our existing insurance for terrorist acts and our ability to maintain adequate or full replacement cost “all-risk” property insurance on our properties; and
- other factors discussed under the heading “Risk Factors” in other filings with the Securities and Exchange Commission, or SEC.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, any of these assumptions could prove to be inaccurate and the forward-looking statement based on these assumptions could be incorrect, and actual results could differ materially from those projected or assumed. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent known and unknown risks and uncertainties. Accordingly,

our forward-looking statements are qualified in their entirety by reference to the factors described as “Risk Factors” in the information incorporated by reference herein.

All future written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the previous statements. We undertake no obligation to update any information contained herein or incorporated by reference or to publicly release the results of any revisions to any forward-looking statements that may be made to reflect events or circumstances that occur, or that we became aware of, after the date of this prospectus supplement.

ABOUT THE COMPANY

We are a self-managed and self-administered REIT that owns full-service hotel properties. As of December 29, 2003, we owned 117 hotels representing approximately 58,400 rooms located throughout North America. Our hotels are operated under brand names that are among the most respected and widely recognized in the lodging industry—including Marriott, Ritz-Carlton, Hyatt, Four Seasons and Hilton.

We were formed in 1998 as a Maryland corporation as part of our conversion to a REIT. As part of this REIT conversion and our desire to re-incorporate in Maryland, we merged with Host Marriott Corporation, a Delaware corporation, which had been operating since 1993, and retained the name. We conduct our operations as an umbrella partnership REIT through our direct and indirect subsidiaries, including Host Marriott, L.P., a Delaware limited partnership of which we are the sole general partner and hold approximately 93% of the common partnership interests as of December 29, 2003.

The address of our principal executive office is 6903 Rockledge Drive, Suite 1500, Bethesda, Maryland, 20817. Our phone number is (240) 744-1000. Our Internet website address is www.hostmarriott.com.

RISK FACTORS

You should carefully consider the risk factors and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus before you decide to buy our common stock.

Before you decide to buy our common stock, you should carefully consider the risk factors set forth under the heading “Risk Factors” in our most recent Annual Report on Form 10-K, the matters discussed in the section entitled “Management’s Discussion and Analysis of Results of Operations and Financial Condition” in our Quarterly Reports on Form 10-Q, the federal income tax considerations discussed in our Form 8-K filed August 11, 2003 and our financial statements in our Form 8-K filed December 10, 2003, which are incorporated by reference into this prospectus supplement and the accompanying prospectus. These risk factors and other information may be updated from time to time by our future filings under the Securities Exchange Act of 1934, as amended, or by additional prospectus supplements. For more information, see the section entitled “Where You Can Find More Information” in the accompanying prospectus.

RECENT EVENTS

Acquisition

On November 13, 2003, we acquired the 806-room Hyatt Regency Maui Resort and Spa. The property is located on a 37-acre site on Kaanapali Beach on the island of Maui, Hawaii, and is consistent with our strategy of acquiring upper-upscale and luxury hotels with high barriers to entry for new hotels. The purchase price of \$321 million was paid in cash, and was funded with a portion of the proceeds of our August 2003 and October 2003 equity offerings of \$251 million and \$250 million, respectively, the proceeds of which were contributed to Host Marriott, L.P. The hotel will add to the geographic diversity of our portfolio, and its purchase represents our sixth Hyatt-branded property. We are now one of Hyatt’s largest unaffiliated owners.

Dispositions

During the fourth quarter of 2003, we sold four properties: the Jacksonville Marriott, the Williamsburg Marriott, the Oklahoma City Marriott and the Plaza San Antonio Marriott for net proceeds of approximately \$92 million. We intend to use the proceeds from the sales to repay debt and for other corporate purposes.

[Table of Contents](#)

Resolution of Outstanding Issues on the New York Marriott World Trade Center and Financial Center Hotels.

On December 3, 2003, we announced the settlement of the outstanding matters relating to the terrorist attacks of September 11, 2001 affecting the New York World Trade Center Marriott and New York Marriott Financial Center hotels with the hotels' insurer and the hotels' manager, as well as with the Port Authority of New York and New Jersey. As a result of these settlements, we received net insurance proceeds of approximately \$370 million. A portion of the proceeds was used to repay the \$65 million of debt incurred upon acquisition of the World Trade Center hotel. We intend to use the remaining proceeds to pay down debt, acquire new properties or for general corporate purposes. See "*Financings.*"

Under our agreement with the Port Authority, we surrendered the site where the hotel was located and terminated a ground lease that would have run until 2094. As a result, we are no longer obligated to rebuild at the site, but received a right of first offer through 2023 with respect to hotel development on the World Trade Center site.

As a result of this settlement, we will record a one-time gain of approximately \$210 million, as well as approximately \$17 million of 2003 net business interruption proceeds, both of which will be reflected in net income in our 2003 financial statements. The \$210 million gain is comprised of approximately \$155 million in post-2003 business interruption proceeds and approximately \$55 million from the disposition of the World Trade Center hotel.

Because we were previously obligated under our ground lease to rebuild the World Trade Center hotel on the site as noted above, we had recorded insurance proceeds in continuing operations. As a result of this settlement, we have reclassified prior year operations for the World Trade Center hotel, as well as the current year gain related to the settlement, as discontinued operations in accordance with SFAS 144.

Financings

On October 21, 2003, we issued 23.5 million shares of common stock in an underwritten public offering. Proceeds after deducting the underwriting discount and offering expenses were approximately \$250 million. The proceeds were contributed to Host Marriott, L.P. in exchange for the issuance to us of 23.5 million common operating partnership units.

On November 6, 2003, Host Marriott, L.P. issued \$725 million in 7⁷/₈% Series J senior notes due in 2013. On December 8, 2003, the net proceeds, after deducting the initial purchasers' commissions and offering expenses, of \$711 million were used to redeem \$429 million of its existing 7⁷/₈% Series A senior notes due in 2005 and \$282 million of its 8.45% Series C senior notes due in 2008. The terms of the Series A and C senior notes required the payment of a premium in exchange for the right to retire this debt in advance of its maturity date. In conjunction with the redemption, we recorded a loss of approximately \$28 million for the payment of the premium and the acceleration of the related deferred financing fees in the fourth quarter of 2003.

On December 30, 2003, we announced our intention to repay approximately \$295 million of debt with the remaining proceeds from the resolution of the World Trade Center matters. The repayment will include Host Marriott, L.P.'s redemption of the remaining \$218 million of 8.45% Series C senior notes due in 2008, a partial repayment in the amount of \$33 million of the \$88 million outstanding balance of mortgage debt secured by four of our Canadian properties, and repayment of a portion of the mortgage debt in the amount of \$44 million secured by two Ritz-Carlton hotels located in the Buckhead section of Atlanta, Georgia and in Naples, Florida. As discussed above, the terms of the Series C senior notes require the payment of a premium to the holders in order to retire these notes prior to maturity. Additionally, all the debt repayments will trigger the acceleration of deferred financing fees. The accelerated deferred financing fees and call premiums will total approximately \$12 million.

The mortgage indebtedness on the four Canadian properties is denominated in United States dollars and the functional currency of the properties is Canadian dollars. As a result, at the time we entered into this loan, we also entered into currency forward contracts to buy U.S. dollars at a fixed price. These forward contracts hedged the currency exposure of converting Canadian dollars into U.S. dollars on a monthly basis to cover debt service payments. The partial repayment of the Canadian mortgage debt will result in the forward currency contracts hedge being deemed ineffective for accounting purposes which results in the recognition of a loss of approximately \$19 million.

To reduce future cash interest payments, as well as future amounts due at maturity or upon redemption, we may from time to time purchase senior notes for cash through open market purchases, privately negotiated transactions, a tender offer or, in some cases, through the early redemption of such securities. In November 2003, our Board of Directors authorized us to purchase or retire up to

[Table of Contents](#)

\$600 million of our senior notes, of which the \$218 million discussed above is a part. Repurchases of debt, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. As a result of additional asset sales or to take advantage of favorable market conditions, we may also retire or refinance additional senior notes and mortgage debt from time to time. Any refinancing or retirement before the maturity date would affect earnings and FFO per diluted share as a result of the payment of any applicable premiums and the acceleration of previously deferred financing charges.

SFAS 150

We adopted SFAS 150 as of the beginning of our fiscal quarter ended September 12, 2003 as required by the pronouncement. SFAS 150 requires issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. Previously, many such instruments had been classified as equity. A freestanding financial instrument is an instrument that is entered into separately and apart from any of the entity's other financial instruments or equity transactions, or that is entered into in conjunction with some other transaction and is legally detachable and separately exercisable, such as certain put and call options.

On October 8, 2003, the Financial Accounting Standards Board (FASB) issued guidance with respect to SFAS 150 that issuers whose financial statements include consolidated ventures with finite lives should reflect any minority interests in such consolidated ventures as a liability on the issuer's financial statements presented at its fair value as of the applicable balance sheet date. Under SFAS 150, any fluctuation in the fair value of the minority interest from period to period would be recorded on the issuer's financial statements as interest expense for the change in the fair value of the liability. As a result of applying SFAS 150 in accordance with this guidance from the FASB, in our third quarter Form 10-Q we recorded a loss from a cumulative effect of a change in accounting principle of \$24 million. Additionally, we included in our liabilities as of September 12, 2003, minority interests with a fair value of \$112 million.

On November 7, 2003, the FASB issued a FASB Staff Position (FSP) 150-3 indefinitely deferring the application of a portion of SFAS 150 with respect to minority interests in consolidated ventures entered into prior to November 5, 2003, effectively reversing its guidance of October 8, 2003. In accordance with the FSP 150-3, in the fourth quarter of 2003 we will record a cumulative effect of a change in accounting principle reversing the impact of our adoption of SFAS 150 with respect to consolidated ventures with finite lives.

DIVIDEND POLICY

Under the terms of our senior notes indenture and credit facility, our ability to pay dividends on our common and preferred equity is dependent on our ability to satisfy certain financial requirements, including an EBITDA-to-interest coverage ratio of at least 2.0 to 1.0. Since the beginning of the third quarter of 2002, we have not met this EBITDA-to-interest coverage ratio. As a result, we are permitted to declare and pay dividends on our common and preferred stock only to the extent necessary to maintain our status as a REIT. Required income distributions for 2002 to maintain REIT status were satisfied in part by the payment of dividends on the preferred stock in 2002. The remaining 2002 income distribution requirement was satisfied by the payment of dividends that were declared on the preferred stock in the first three quarters of 2003.

Taxable income generated by the insurance recovery on the World Trade Center and Financial Center hotels will be sufficient to allow us to pay the dividend on our preferred stock for the fourth quarter of 2003. As a result, on December 16, 2003, we announced that our Board of Directors had declared a dividend of \$0.625 per share of preferred stock, which will be paid on January 15, 2004 to preferred stockholders of record on December 31, 2003.

Taxable income generated by the insurance recovery on the World Trade Center and Financial Center hotels may also be sufficient to allow us to pay up to the first three quarters of dividends on our preferred stock in 2004. Preferred dividend payments beyond those supported by the taxable income generated by this settlement will depend on, among other factors, taxable income or loss from operations in 2004 or our ability to meet a minimum EBITDA-to-interest coverage ratio (both as required by the senior notes indenture).

We have not paid a dividend on our common stock since the third quarter of 2001. The decision to reinstate the common dividend (including the amount of any such dividend) will be made by the Board of Directors and will depend on several factors, including those described above for distributions on the preferred stock, as well as our liquidity and any accrued unpaid dividends on the preferred stock.

THE COMPANY

Host Marriott was formed to continue and expand the hotel lodging property ownership business of its predecessors. Host Marriott succeeded to this business as a result of its merger with Host Marriott Corporation, a Delaware corporation, and other restructuring transactions consummated in December 1998 which we refer to as the "REIT conversion." Host Marriott is one of the largest owners of hotels in the world, with ownership of, or controlling interests in, approximately 124 upscale and luxury full-service hotel lodging properties in its portfolio as of June 30, 1999. Virtually all of these properties are leased to subsidiaries of Crestline Capital Corporation, a Maryland corporation and formerly a wholly owned subsidiary of Host Marriott, and are generally operated under the Marriott and Ritz-Carlton brand names and managed by Marriott International, Inc.
