OPERATING RESULTS (unaudited, in millions, except per share and hotel statistics)

* Additional detail on the Company's results, including data for 22 domestic markets, is available in the Third Quarter 2022 Supplemental Financial Information on the Company's website at <u>www.hosthotels.com</u>.

James F. Risoleo, President and Chief Executive Officer, said, "During the third quarter, we continued to see strong positive operating trends. RevPAR was \$192 for the quarter, representing a 1.4% increase over the third quarter of 2019, the second consecutive quarter of improvement in comparison to 2019. Our results this quarter were driven by continued rate strength, with an increase of 15.8% compared to the same period in 2019, despite typical seasonality and shifting business and market mix."

Risoleo continued, "In November, we completed another acquisition, buying the Four Seasons Resort and Residences Jackson Hole for \$315 million. We are pleased to further diversify our portfolio with one of only a handful of ski-in/ski-out luxury resorts in the United States. The hotel is situated in close proximity to Yellowstone and Grand Teton National Parks in a year-round market with shrinking shoulder seasons, severely restricted supply and a history of strong RevPAR

⁽¹⁾ NAREIT Funds From Operations ("FFO") per diluted share, Adjusted FFO per diluted share, EBITDAre, Adjusted EBITDAre and All Owned Hotel revenues are non-GAAP (U.S. generally accepted accounting principles) financial measures within the meaning of the rules of the Securities and Exchange Commission ("SEC"). See the Notes to Financial Information on why the Company believes these supplemental measures are useful, reconciliations to the most directly comparable GAAP measure, and the limitations on the use of these supplemental measures. Additionally, All Owned Hotel results and statistics include adjustments for dispositions and acquisitions. See Hotel Operating Data for RevPAR results of the portfolio based on the Company's ownership period, without these adjustments.

⁽²⁾ Presentation includes comparisons to 2019 operating results in order to allow investors to better understand the trajectory and timing of any recovery from the COVID-19 impacts on hotel operations.

growth. This acquisition further demonstrates Host's ability to utilize our strong balance sheet to improve the quality and EBITDA growth profile of our portfolio. As a result, we believe that Host is well-positioned for future growth."

HIGHLIGHTS:

- All Owned Hotel Total RevPAR was \$306.11 and All Owned Hotel RevPAR was \$192.06 in the third quarter, a 3.8% and 1.4% increase, respectively, over third quarter of 2019. Average room rates were 15.8% above third quarter 2019, driven by continued strong leisure demand, while also benefiting from growth in urban markets, driven by increased group and business travel.
- Generated GAAP net income of \$116 million in the third quarter and GAAP operating profit margin for the quarter was 12.4%, an improvement of 150 basis points compared to the third quarter of 2019.
- Achieved All Owned Hotel EBITDA of \$341 million and Adjusted EBITDAre of \$328 million, both of which exceeded 2019 third quarter results.
- The strong improvement in rate and more normalized staffing levels led to All Owned Hotel EBITDA margin of 28.7% for the third quarter, exceeding the third quarter 2019 margin by 250 basis points. GAAP operating profit margin and All Owned Hotel EBITDA margin benefited from receipt of business interruption insurance proceeds of \$10 million related to the Orlando World Center Marriott, which, net of management fees, increased margins by 60 basis points.
- During the third quarter, sold the Chicago Marriott Suites Downers Grove for \$16 million, including \$2 million of furniture fixtures & equipment ("FF&E") funds retained by the Company. The hotel was expected to have capital expenditures needs of approximately \$15 million within the next five years.
- Subsequent to quarter end, acquired the 125-room Four Seasons Resort and Residences Jackson Hole for \$315 million. The luxury ski resort in Jackson Hole, Wyoming also features an additional 44 private residences, the owners of which may participate in a rental program through the resort. The resort, located steps from the gondola at the base of the Jackson Hole Mountain Resort, offers nearly 9,000 square feet of indoor meeting space, three upscale food and beverage outlets plus a pool café, two retail outlets and a 16-treatment room alpine spa.

BALANCE SHEET

The Company maintains a robust balance sheet, with the following balances at September 30, 2022:

- Total assets of \$12.2 billion.
- Debt balance of \$4.2 billion, with an average maturity of 4.8 years, an average interest rate of 4.1%, and no significant maturities until 2024.
- Total available liquidity of approximately \$2.6 billion, including FF&E escrow reserves of \$187 million and \$1.5 billion available under the revolver portion of the credit facility. Following the cash acquisition of the Four Seasons Resort and Residences Jackson Hole that was completed subsequent to quarter end, the Company's total available liquidity was approximately \$2.2 billion.

DIVIDEND

The Company paid a third quarter cash dividend of \$0.12 per share on its common stock on October 17, 2022 to stockholders of record on September 30, 2022. All future dividends are subject to approval by the Company's Board of Directors. During the third quarter, the Board of Directors authorized an increase in the Company's share repurchase program to \$1 billion. No shares were repurchased during the third quarter under the program.

OPERATING RESULTS

- All Owned Hotel RevPAR surpassed third quarter 2019 RevPAR, as strong leisure demand for resorts and hotels located in the Company's Sunbelt markets and Hawaii continued. Results also benefited from group revenues surpassing third quarter 2019, as group demand improved quarter over quarter and rates exceeded 2019.
- Food and beverage revenues for the Company's current portfolio exceeded 2019 for the first time since the onset of the pandemic, improving approximately 3.8%, compared to the third quarter of 2019. Banquet and Catering revenues improved 6% compared to 2019 driven by higher contributions from group business, and outlet revenues also exceeded 2019.

- Hiring pace improved in the third quarter compared to the second quarter, leading to staffing more aligned with operators' desired levels.
- While the majority of the Company's properties in Florida were affected by Hurricane Ian in September, the most significant damage sustained during the storm occurred at The Ritz-Carlton, Naples and Hyatt Regency Coconut Point Resort and Spa. Due to evacuation mandates and/or loss of commercial power, five of the Company's properties in Florida were temporarily closed, three of which reopened within days. Due to proximity of the event to quarter end, operating results for the third quarter 2022 were not materially impacted, however the impact will carry into the fourth quarter as well as into 2023, as The Ritz-Carlton, Naples and Hyatt Regency Coconut Point Resort and Spa remain closed. The Company is still evaluating the complete property and business interruption impacts of the storm. Despite a brief loss of commercial power and damage to the property's grounds, pools and amenities, the Hyatt Regency Coconut Point has remained open to first responders and the hotel is expected to reopen to guests in mid-November, as a phased reopening, with the waterpark reopening during the second quarter of 2023. The Ritz-Carlton, Naples is expected to remain closed for the remainder of the year and into 2023, with a phased reopening strategy being evaluated.

HOTEL BUSINESS MIX UPDATE

The Company's customers fall into three broad groups: transient, group and contract business, which accounted for approximately 61%, 35%, and 4%, respectively, of its 2019 room sales.

While leisure demand continued to contribute to improvements in the third quarter compared to 2019, group demand also moved closer to 2019 levels, while maintaining a strong increase in rate compared to the third quarter of 2019. The following are the sequential results for transient, group and contract business in comparison to 2019 performance, for the Company's current portfolio:

	Quarter	ended	September 30), 2022 <u> </u>	Quarter ended June 30, 2022					
	Transient	(Group	Contract	Transient	Group	Contract			
Room nights (in thousands)	1,557		991	151	1,581	1,116	138			
Percentage change in room nights vs. same period in 2019	(18.4)	%	(2.6)%	21.2%	(10.3)%	(8.4)%	12.4%			
Rooms Revenues (in millions) Percentage change in revenues vs.	\$ 487	\$	229 3	\$ 28	\$ 529	\$ 289	\$ 26			
same period in 2019	1.7%	, D	3.3%	9.4%	9.7%	(2.9)%	2.1%			

CAPITAL EXPENDITURES

The following presents the Company's capital expenditures spend for the third quarter and the forecast for full year 2022 (in millions):

	Year-to-date ended September 30, 2022			2022 Full Year Forecast				
	A	ctual	Low-end	d of range	High-end of range			
ROI - Marriott Transformational Capital Program	\$	70	\$	90	\$	115		
ROI - All other ROI projects		170		230		240		
Total ROI project spend		240		320		355		
Renewals and Replacements		117		180		220		
Total Capital Expenditures	\$	357	\$	500	\$	575		

The Company invested heavily in capital expenditures in the early phases of recovery in order to minimize future disruption and believes these renovations will position these hotels to capture additional revenue during the lodging recovery. In 2022, the Company expects to complete renovations to 4,000 guestrooms, approximately 33,000 square feet of meeting space and approximately 81,000 square feet of public space. The Company received \$1 million of operating profit guarantees in the third quarter and \$8 million year-to-date and expects to receive approximately \$10 million in total operating profit guarantees in 2022 under the Marriott Transformational Capital Program. Fifteen of the 16 properties in the program are expected to be substantially complete by the end of 2022, with Washington Marriott at Metro Center expected to complete in the first half of 2023.

2022 OUTLOOK

The Company estimates, based on information currently available, that Hurricane Ian will negatively impact its full year revenues by approximately \$42 million, of which \$36 million is in the fourth quarter, All Owned Hotel RevPAR by 70 basis points, but have a 250 basis points impact in the fourth quarter, and net income and Adjusted EBITDAre by \$20 million, of which \$17 million is in the fourth quarter. Full Year 2022 Guidance for operating profit margin under GAAP and All Owned Hotel EBITDA margin have also been reduced by 30 basis points and 10 basis points, respectively, due to the estimated impact of Hurricane Ian. As a result, the Company anticipates its full year 2022 operating results, as compared to 2021 and 2019, will be in the following range:

		Full Year 2022 Guidance ⁽¹⁾											
	Low-end of range		High-end of range		Change vs. 2021	Change vs. 2019							
All Owned Hotel Total RevPAR	\$	313	\$	316	70.0% to 71.7%	(4.0)% to (3.0)%							
All Owned Hotel RevPAR		193		195	63.7% to 65.4%	(3.75)% to (2.75)%							
Total revenues under GAAP		4,855		4,903	68.0% to 69.7%	(11.2)% to (10.3)%							
Operating profit margin under GAAP		15.3%		15.8%	2,400 bps to 2,450 bps	70 bps to 120 bps							
All Owned Hotel EBITDA margin		31.6%		31.9%	820 bps to 850 bps	190 bps to 220 bps							

(1) All Owned Hotel guidance does not include the results of the Four Seasons Resort and Residences Jackson Hole, acquired on November 1, 2022.

Based upon the above parameters, the Company estimates its full year 2022 guidance as follows:

		Full Year 2022 Gui							
	Low-end	High-end of range							
Net income (in millions)	\$	617	\$	645					
Adjusted EBITDA <i>re</i> (in millions)		1,470		1,500					
Diluted earnings per common share		0.85		0.89					
NAREIT FFO per diluted share		1.75		1.79					
Adjusted FFO per diluted share		1.75		1.79					

See the 2022 Full Year Forecast Schedule and the Notes to Financial Information for items that may affect forecast results.

HOST HOTELS & RESORTS, INC. Hotel Operating Data for Consolidated Hotels⁽¹⁾⁽²⁾ (cont.)

- (1) To facilitate a quarter-to-quarter comparison of our operations, we typically present certain operating statistics and operating results for the periods included in this presentation on a comparable hotel basis. However, due to the COVID-19 pandemic and its effects on operations there is little comparability between periods. For this reason, we temporarily are suspending our comparable hotel presentation and instead present hotel operating results for all consolidated hotels and, to facilitate comparisons between periods, we are presenting in these tables statistics which include the following adjustments: (1) operating results are presented for all consolidated properties owned as of September 30, 2022 but do not include the results of operations for properties sold or held-for-sale as of the reporting date; and (2) operating results for acquisitions as of September 30, 2022 are reflected for full calendar years, to include results for periods prior to our ownership. For these hotels, since the year-over-year comparison includes periods prior to our ownership, the changes will not necessarily correspond to changes in our actual results. See the Notes to Financial Information All Owned Hotel Operating Statistics and Results for further information on these statistics. See the tables that follow for the Company's actual operating statistics without these adjustments. The AC Hotel Scottsdale North is a new development hotel that opened in January 2021 and The Laura Hotel in Houston re-opened under new management in November 2021. Therefore, no adjustments were made for results of these hotels for periods prior to their openings. CBD of a location refers to the central business district.
- (2) Hotel RevPAR is calculated as room revenues divided by the available room nights. Hotel Total RevPAR is calculated by dividing the sum of rooms, food and beverage and other revenues by the available room nights.

All Owned Hotel EBITDA ⁽¹⁾	\$	341	\$	198	\$	296	\$	1,179	\$	398	\$	1,123

(1) See the Notes to Financial Information for a discussion of non-GAAP measures and the limitations on their use. All Owned Hotel adjustments represent the following items: (i) the elimination of results of operations of our hotels sold or held-for-sale as of September 30, 2022, which operations are included in our unaudited condensed consolidated statements of operations as continuing operations and (ii) the addition of results for periods prior to our ownership for hotels acquired as of September 30, 2022. All Owned Hotel results also include the results of our leased office buildings and other non-hotel revenue and expense items. The AC Hotel Scottsdale North is a new development hotel that opened in January 2021 and The Laura Hotel in Houston re-opened under new management in November 2021. Therefore, no adjustments were made for results of these hotels for periods prior to their openings.

(2) Profit margins are calculated by dividing the applicable operating profit by the related revenue amount. GAAP profit margins are calculated using amounts presented in the unaudited condensed consolidated statements of operations. All Owned Hotel margins are calculated using amounts presented in the following tables, which include reconciliations to the applicable GAAP results:

(1) The Forecasts are based on the below assumptions:

All Owned Hotel RevPAR will increase 63.7% to 65.4% compared to 2021 for the low and high end of the forecast range.

 All Owned Hotel EBITDA margins will increase 820 to 850 basis points compared to 2021 for the low and high ends of the forecasted All Owned Hotel RevPAR range, respectively.

We expect to spend approximately \$500 million to \$575 million on capital expenditures.

There will be no additional hotel acquisitions or dispositions in 2022.

• The Ritz-Carlton, Naples will remain closed due to Hurricane Ian for the fourth quarter and Hyatt Regency Coconut Point Resort and Spa will remain closed for part of the fourth quarter.

For a discussion of items that may affect forecast results, see the Notes to Financial Information.

HOST HOTELS & RESORTS, INC. Schedule of All Owned Hotel Results for Full Year 2022 Forecasts ⁽¹⁾

(unaudited, in millions)

	Full Year 2022				
	Low-ei	nd of range	High-e	nd of range

(1) See "Reconciliation of Net Income to EBITDA, EBITDAre and Adjusted EBITDAre and Diluted Earnings per Common Share to NAREIT and Adjusted Funds From Operations per Diluted Share for Full Year 2022 Forecasts" for other forecast assumptions. All Owned Hotel adjustments represent the following items: (i) the elimination of results of operations of our hotels sold or held-for-sale as of September 30, 2022, which operations are included in our unaudited condensed consolidated statements of operations as continuing operations and (ii) the addition of results for periods prior to our ownership for hotels acquired as September 30, 2022. All Owned Hotel guidance does not include the results of the Four Seasons Resort and Residences Jackson Hole, acquired on November 1, 2022. All Owned Hotel results also include the results of our leased office buildings and other non-hotel revenue and expense items.

(2) Profit margins are calculated by dividing the applicable operating profit by the related revenue amount. GAAP profit margins are calculated using amounts presented in the unaudited condensed consolidated statements of operations. All Owned Hotel margins are calculated using amounts presented in the following tables, which include reconciliations to the applicable GAAP results:

	Low-end of range					High-end of range

HOST HOTELS & RESORTS, INC. Notes to Financial Information

FORECASTS

Our forecast of net income, earnings per diluted share, NAREIT and Adjusted FFO per diluted share, EBITDA, EBITDA, Adjusted EBITDAre and All Owned Hotel results are forward-looking statements and are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors which may cause actual results and performance to differ materially from those expressed or implied by these forecasts. Although we believe the expectations reflected in the forecasts are based upon reasonable assumptions, we can give no assurance that the expectations will be attained or that the results will not be materially different. Risks that may affect these assumptions and forecasts include the following: potential changes in overall economic outlook make it inherently difficult to forecast the level of RevPAR; the amount and timing of debt payments may change significantly based on market conditions, which will directly affect the level of interest expense and net income; the amount and timing of transactions involving shares of our common stock may change based on market conditions; and other risks and uncertainties associated with our business described herein and in our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K filed with the SEC.

ALL OWNED HOTEL OPERATING STATISTICS AND RESULTS

To facilitate a quarter-to-quarter comparison of our operations, we typically present certain operating statistics (i.e., Total RevPAR, RevPAR, average daily rate and average occupancy) and operating results (revenues, expenses, hotel EBITDA and associated margins) for the periods included in this presentation on a comparable hotel basis in order to enable our investors to better evaluate our operating performance (discussed in "Hotel Property Level Operating Results" below). However, due to the COVID-19 pandemic and its effects on operations, there is little comparability between periods. For this reason, we temporarily are suspending our comparable hotel presentation and instead present hotel operating results for all consolidated hotels and, to facilitate comparisons between periods, we are presenting results, referred to as "All Owned Hotel", which include the following adjustments: (1) operating results are presented for all consolidated hotels owned as of September 30, 2022, but do not include the results of operations for properties sold or held-for-sale as of the reporting date; and (2) operating results for acquisitions as of September 30, 2022 are reflected for full calendar years, to include results for periods prior to our ownership. For these hotels, since the year-over-year comparison includes periods prior to our ownership, the changes will not necessarily correspond to changes in our actual results.

FOREIGN CURRENCY TRANSLATION

Operating results denominated in foreign currencies are translated using the prevailing exchange rates on the date of the transaction, or monthly based on the weighted average exchange rate for the period. Therefore, hotel statistics and results for non-U.S. properties include the effect of currency fluctuations, consistent with our financial statement presentation.

NON-GAAP FINANCIAL MEASURES

Included in this press release are certain "non-GAAP financial measures," which are measures of our historical or future financial performance that are not calculated and presented in accordance with GAAP, within the meaning of applicable SEC rules. They are as follows: (i) FFO and FFO per diluted share (both NAREIT and Adjusted), (ii) EBITDA, (iii) EBITDA*re* and Adjusted EBITDA*re*, and (iv) All Owned Hotel Operating Statistics and Results. The following discussion defines these measures and presents why we believe they are useful supplemental measures of our performance.

NAREIT FFO AND NAREIT FFO PER DILUTED SHARE

We present NAREIT FFO and NAREIT FFO per diluted share as non-GAAP measures of our performance in addition to our earnings per share (calculated in accordance with GAAP). We calculate NAREIT FFO per diluted share as our NAREIT FFO (defined as set forth below) for a given operating period, as adjusted for the effect of dilutive securities, divided by the number of fully diluted shares outstanding during such period, in accordance with NAREIT guidelines. Effective January 1, 2019, we adopted NAREIT's definition of FFO included in NAREIT's Funds From Operations White Paper – 2018 Restatement. NAREIT defines FFO as net income (calculated in accordance with GAAP) excluding depreciation and amortization related to real estate, gains and losses from the sale of certain real estate assets, gains and losses from change in control, impairment expense of certain real estate assets and investments and adjustments for consolidated partially-owned entities and unconsolidated affiliates. Adjustments for consolidated partially-owned entities and unconsolidated affiliates are calculated to reflect our pro rata share of the FFO of those entities on the same basis.

We believe that NAREIT FFO per diluted share is a useful supplemental measure of our operating performance and that the presentation of NAREIT FFO per diluted share, when combined with the primary GAAP presentation of earnings per share, provides beneficial information to investors. By excluding the effect of real estate depreciation, amortization, impairment expense and gains and losses from sales of depreciable real estate, all of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance, we believe that such measures can facilitate comparisons of operating performance between periods and with other REITs, even though NAREIT FFO per diluted share does not represent an amount that accrues directly to holders of our common stock. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. As noted by NAREIT in its Funds From Operations White Paper – 2018 Restatement, the primary purpose for including FFO as a supplemental measure of operating performance of a REIT is to address the artificial nature of historical cost depreciation and amortization of real estate and real estate-related assets mandated by GAAP. For these reasons, NAREIT adopted the FFO metric in order to promote a uniform industry-wide measure of REIT operating performance.

HOST HOTELS & RESORTS, INC. Notes to Financial Information (cont.)

Adjusted FFO per Diluted Share

We also present Adjusted FFO per diluted share when evaluating our performance because management believes that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. Management historically has made the adjustments detailed below in evaluating our performance, in our annual budget process and for our compensation programs. We believe that the presentation of Adjusted FFO per diluted share, when combined with both the primary GAAP presentation of diluted earnings per share and FFO per diluted share as defined by NAREIT, provides useful supplemental information that is beneficial to an investor's understanding of our operating performance. We adjust NAREIT FFO per diluted share for the following items, which may occur in any period, and refer to this measure as Adjusted FFO per diluted share:

- Gains and Losses on the Extinguishment of Debt We exclude the effect of finance charges and premiums associated with the
 extinguishment of debt, including the acceleration of the write-off of deferred financing costs from the original issuance of the
 debt being redeemed or retired and incremental interest expense incurred during the refinancing period. We also exclude the
 gains on debt repurchases and the original issuance costs associated with the retirement of preferred stock. We believe that
 these items are not reflective of our ongoing finance costs.
- Acquisition Costs Under GAAP, costs associated with completed property acquisitions that are considered business
 combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective
 of the ongoing performance of the Company.
- Litigation Gains and Losses We exclude the effect of gains or losses associated with litigation recorded under GAAP that we
 consider outside the ordinary course of business. We believe that including these items is not consistent with our ongoing
 operating performance.
- Severance Expense –In certain circumstances, we will add back hotel-level severance expenses when we do not believe that
 such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back
 include, but are not limited to, (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific
 hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant
 reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an
 individual hotel that we consider to be incurred in the normal course of business.

In unusual circumstances, we also may adjust NAREIT FFO for gains or losses that management believes are not representative of the Company's current operating performance. For example, in 2017, as a result of the reduction of the U.S. federal corporate income tax rate from 35% to 21% by the Tax Cuts and Jobs Act, we remeasured our domestic deferred tax assets as of December 31, 2017 and recorded a one-time adjustment to reduce our deferred tax assets and to increase the provision for income taxes by approximately \$11 million. We do not consider this adjustment to be reflective of our on-going operating performance and, therefore, we excluded this item from Adjusted FFO.

EBITDA

Earnings before Interest Expense, Income Taxes, Depreciation and Amortization ("EBITDA") is a commonly used measure of performance in many industries. Management believes EBITDA provides useful information to investors regarding our results of operations because it helps us and our investors evaluate the ongoing operating performance of our properties after removing the impact of the Company's capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization). Management also believes the use of EBITDA facilitates comparisons between us and other lodging REITs, hotel owners that are not REITs and other capital-intensive companies. Management uses EBITDA to evaluate property-level results and as one measure in determining the value of acquisitions and dispositions and, like FFO and Adjusted FFO per diluted share, it is widely used by management in the annual budget process and for our compensation programs.

EBITDAre and Adjusted EBITDAre

We present EBITDAre in accordance with NAREIT guidelines, as defined in its September 2017 white paper "Earnings Before Interest, Taxes, Depreciation and Amortization for Real Estate," to provide an additional performance measure to facilitate the evaluation and comparison of the Company's results with other REITs. NAREIT defines EBITDAre as net income (calculated in accordance with GAAP) excluding interest expense, income tax, depreciation and amortization, gains or losses on disposition of depreciated property (including gains or losses on change of control), impairment expense of depreciated property and of investments in unconsolidated affiliates caused by a decrease in value of depreciated property in the affiliate, and adjustments to reflect the entity's pro rata share of EBITDAre of unconsolidated affiliates.

We make additional adjustments to EBITDAre when evaluating our performance because we believe that the exclusion of certain additional items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDAre, when combined with the primary GAAP presentation of net income, is beneficial to an investor's understanding of our operating performance. Adjusted EBITDAre also is similar to the measure used to calculate certain credit ratios for our credit facility and senior notes. We adjust EBITDAre for the following items, which may occur in any period, and refer to this measure as Adjusted EBITDAre:

• Property Insurance Gains – We exclude the effect of property insurance gains reflected in our consolidated statements of operations because we believe that including them in Adjusted EBITDAre is not consistent with reflecting the ongoing

HOST HOTELS & RESORTS, INC. Notes to Financial Information (cont.)

performance of our assets. In addition, property insurance gains could be less important to investors given that the depreciated asset book value written off in connection with the calculation of the property insurance gain often does not reflect the market value of real estate assets.

- Acquisition Costs Under GAAP, costs associated with completed property acquisitions that are considered business
 combinations are expensed in the year incurred. We exclude the effect of these costs because we believe they are not reflective
 of the ongoing performance of the Company.
- Litigation Gains and Losses We exclude the effect of gains or losses associated with litigation recorded under GAAP that we
 consider outside the ordinary course of business. We believe that including these items is not consistent with our ongoing
 operating performance.
- Severance Expense In certain circumstances, we will add back hotel-level severance expenses when we do not believe that
 such expenses are reflective of the ongoing operation of our properties. Situations that would result in a severance add-back
 include, but are not limited to, (i) costs incurred as part of a broad-based reconfiguration of the operating model with the specific
 hotel operator for a portfolio of hotels and (ii) costs incurred at a specific hotel due to a broad-based and significant
 reconfiguration of a hotel and/or its workforce. We do not add back corporate-level severance costs or severance costs at an
 individual hotel that we consider to be incurred in the normal course of business.

In unusual circumstances, we also may adjust EBITDAre for gains or losses that management believes are not representative of the Company's current operating performance. The last adjustment of this nature was a 2013 exclusion of a gain from an eminent domain claim.

Limitations on the Use of NAREIT FFO per Diluted Share, Adjusted FFO per Diluted Share, EBITDA, EBITDAre and Adjusted EBITDAre

We calculate EBITDAre and NAREIT FFO per diluted share in accordance with standards established by NAREIT, which may not be comparable to measures calculated by other companies that do not use the NAREIT definition of EBITDAre and FFO or do not calculate FFO per diluted share in accordance with NAREIT guidance. In addition, although EBITDAre and FFO per diluted share are useful measures when comparing our results to other REITs, they may not be helpful to investors when comparing us to non-REITs. We also calculate Adjusted FFO per diluted share and Adjusted EBITDAre, which are not in accordance with NAREIT guidance and may not be comparable to measures calculated by other REITs or by other companies. This information should not be considered as an alternative to net income, operating profit, cash from operations or any other operating performance measure calculated in accordance with GAAP. Cash expenditures for various long-term assets (such as renewal and replacement capital expenditures), interest expense (for EBITDA, EBITDAre and Adjusted EBITDAre purposes only), severance expense related to significant property-level reconfiguration and other items have been, and will be, made and are not reflected in the EBITDA, EBITDAre, Adjusted EBITDAre, NAREIT FFO per diluted share and Adjusted FFO per diluted share presentations. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our consolidated statements of operations and consolidated statements of cash flows in the Company's annual report on Form 10-K and guarterly reports on Form 10-Q include interest expense, capital expenditures, and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measures. Additionally, NAREIT FFO per diluted share, Adjusted FFO per diluted share, EBITDA, EBITDAre and Adjusted EBITDAre should not be considered as a measure of our liquidity or indicative of funds available to fund our cash needs, including our ability to make cash distributions. In addition, NAREIT FFO per diluted share and Adjusted FFO per diluted share do not measure, and should not be used as a measure of, amounts that accrue directly to stockholders' benefit.

Similarly, EBITDAre, Adjusted EBITDAre, NAREIT FFO and Adjusted FFO per diluted share include adjustments for the pro rata share of our equity investments and NAREIT FFO and Adjusted FFO per diluted share include adjustments for the pro rata share of noncontrolling partners in consolidated partnerships. Our equity investments consist of interests ranging from 11% to 67% in eight domestic and international partnerships that own a total of 26 properties and a vacation ownership development. Due to the voting rights of the outside owners, we do not control and, therefore, do not consolidate these entities. The non-controlling partners in consolidated partnerships primarily consist of the approximate 1% interest in Host LP held by outside partners, and a 15% interest held by outside partners in a partnership owning one hotel for which we do control the entity and, therefore, consolidate its operations. These pro rata results for NAREIT FFO and Adjusted FFO per diluted share, EBITDAre and Adjusted EBITDAre were calculated as set forth in the definitions above. Readers should be cautioned that the pro rata results presented in these measures for consolidated partnerships (for NAREIT FFO and Adjusted FFO per diluted share) and equity investments may not accurately depict the legal and economic implications of our investments in these entities.

Hotel Property Level Operating Results

We present certain operating results for our hotels, such as hotel revenues, expenses, food and beverage profit, and EBITDA (and the related margins), on a hotel-level basis as supplemental information for our investors. Our hotel results reflect the operating results of our hotels as discussed in "All Owned Hotel Operating Statistics and Results" above. We present All Owned Hotel EBITDA to help us and our investors evaluate the ongoing operating performance of our hotels after removing the impact of the Company's capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization expense). Corporate-level costs and expenses also are removed to arrive at property-level results. We believe these property-level results provide investors with supplemental information about the ongoing operating performance of our hotels. All Owned Hotel results are presented both by location and for the

HOST HOTELS & RESORTS, INC. Notes to Financial Information (cont.)

Company's properties in the aggregate. We eliminate from our hotel level operating results severance costs related to broad-based and significant property-level reconfiguration that is not considered to be within the normal course of business, as we believe this elimination provides useful supplemental information that is beneficial to an investor's understanding of our ongoing operating performance. We also eliminate depreciation and amortization expense because, even though depreciation and amortization expense are property-level expenses, these non-cash expenses, which are based on historical cost accounting for real estate assets, implicitly assume that the value of real estate assets diminishes predictably over time. As noted earlier, because real estate values historically have risen or fallen with market conditions, many real estate industry investors have considered presentation of historical cost accounting for operating results to be insufficient.

Because of the elimination of corporate-level costs and expenses, gains or losses on disposition, certain severance expenses and depreciation and amortization expense, the hotel operating results we present do not represent our total revenues, expenses, operating profit or net income and should not be used to evaluate our performance as a whole. Management compensates for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our consolidated statements of operations include such amounts, all of which should be considered by investors when evaluating our performance.

While management believes that presentation of All Owned Hotel results is a supplemental measure that provides useful information in evaluating our ongoing performance, this measure is not used to allocate resources or to assess the operating performance of each of our hotels, as these decisions are based on data for individual hotels and are not based on All Owned Hotel results in the aggregate. For these reasons, we believe All Owned Hotel operating results, when combined with the presentation of GAAP operating profit, revenues and expenses, provide useful information to investors and management.
